TARGETED TO PROFESSIONALS

Ski 65" Double Side

SKI is a single-sided or double-sided totem designed for Full Outdoor displays, compatible with Samsung OH Series, LG XE4P, and similar monitors.

Its distinctive feature is the hinged display, which opens like a door to provide quick and easy access to the internal components, making maintenance operations faster and safer.

This solution is especially beneficial in double-sided configurations, where easy accessibility is essential for reducing service time and maintenance costs.
