TARGETED TO PROFESSIONALS

Inspire OH46

INSPIRE is a totem specifically designed for Full Outdoor displays (such as Samsung OH, LG XE4P, or similar models), making it the ideal solution for permanent outdoor installations.

Its robust steel structure, securely fixed to the ground, ensures maximum stability, while the internal cable management through the two support posts provides a clean, protected installation. The modular design allows multiple units to be connected side by side thanks to the integrated display enclosure coupling system, creating continuous digital signage or information walls. It is the perfect solution for fast food restaurants, drive-throughs, service areas, shopping centres, and urban environments, where reliability, clean aesthetics, and maximum visibility are essential.
