

LEGGIO SLIM

PROFESSIONAL DISPLAY SUPPORT

TOTEM LEGGIO SLIM is the perfect solution for wayfinding applications or simply to consult information through a screen.

The product is available in white or black. Inside it is possible to store a mini-PC. The inclination of screen is adjustable in order to facilitate the reading by the user.

The screen is directly connected to the VESA plate, but if necessary, it's possible to have a customized screen housing with or without protective glass.
