

TOTEM OUTDOOR INKA 55/75

PROFESSIONAL DISPLAY SUPPORT

OUTDOOR USE

The TOTEM INKA is designed for intensive outdoor use.

UP TO 75"

TOTEM INKA is available with different size suitable for high brightness screen up to 75"

EASY ACCESS AND MAINTENANCE

INKA is designed to ensure easy maintenance, with the monitor easily removable thanks to the pantograph bracket. Behind the screen, there is the control electrical unit with thermostats for temperature management and a circuit breaker. The specific airflow created by the conditioning system ensures the cooling of the monitor even at high external temperatures.

INKA is supplied with eyebolts to be easily moved by a lift and positioned on the concrete plinth. The eyebolts can be removed after installation.

DOOR WITH PROTECTIVE GLASS

The door with front opening and safety locks includes protective glass.

STANDARD OR OPEN-FRAME SCREEN

The totem is ideal for housing standard or open-frame screen and allows the housing of mini-PCs or other devices.

CUSTOMIZE YOUR TOTEM

INKA can be customized with different devices, such as:

- human proximity sensor
- web cam
- Mini-PC i3, i5 or i7
- Foil Touch PCAP
- Barcode and QR code reader
- LAN Switch
- Router 4G/5G
- Freestanding base

The standard color is Black RAL9005 or White RAL9016, but any color can be supplied upon request.
